SUMMARY

Full-stack developer with hands-on experience in building scalable MERN stack applications using React, Node.js, Express, MongoDB, and Firebase. Strong foundation in Java and currently learning Spring Boot for backend development. Completed an AI/ML specialization with exposure to NLP, Generative AI, and LLM-based API integration. Focused on clean code, performance optimization, and real-world problem solving.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript(ES6+)

Frontend: HTML5, CSS3, React.js, Redux, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js

Database: MongoDB, Firebase, SQL

Tools and Platforms : Git, GitHub, VS Code, Postman

APIs and Authentication: REST APIs, Socket.io, JSON, JWT Authentication

AI/ML and GenAI: GenAI Concepts, NLP Fundamentals, LLM Workflows, APIs Integration

EDUCATION

2024–2026	MCA — The Oxford College of Engineering, VTU	GPA: 9.0/10
2021–2024	Bachelor of Computer Applications (BCA)	GPA: 9.1/10
2021	Class 12th	95%
2019	Class 10th	90%

PROJECTS

NeuralGuide AI

Tools: React.js, Node.js, Express.js, MongoDB, Firebase Auth, Tailwind CSS, Gemini API

- Built an AI-driven developer assistant offering code analysis, debugging support, learning roadmaps, and chat-based guidance via Gemini API.
- Developed secure Express backend with Firebase Authentication and MongoDB for persistent chat memory and user progress.

DevComrades

Tools: React.js, Node.js, Express.js, MongoDB, Socket.io, Tailwind CSS

- Built a real-time developer networking platform with features like 1–1 chat, connections, and activity updates.
- Implemented secure authentication, optimized API endpoints, and low-latency communication using Socket.io.

CineHub-GPT

Tools: React.js, Firebase Authentication, TMDB API, Gemini API

- Engineered a Netflix-style movie browsing platform with secure Firebase authentication and real-time session management.
- Integrated TMDB API to deliver dynamic movie data, including trending, popular, and top-rated categories with optimized UI rendering.
- Built an AI-driven recommendation system using Gemini API to generate personalized movie suggestions from natural-language user queries.
- Implemented secure JWT authentication and CRUD operations for job postings.

INTERNSHIP

Front-End Developer Intern — VTECH Integrated Solutions

March 2024

- Developed and tested responsive user interfaces using React.js and modern CSS frameworks.
- Optimized UI performance and improved layout responsiveness across multiple screen sizes and devices.
- Collaborated with design and development teams to build reusable, modular UI components following best practices.
