

DINESH K

+91 9742466980 dinesh.k.connect@gmail.com linkedin/in/connectdinesh github/dineshk-connect

EDUCATION

The Oxford College of Engineering
Master of Computer Applications

CGPA: 9.0 | August 2024 - May 2026 | Bengaluru

RELEVANT COURSEWORK

- Natural Language Processing (NLP)
- Machine Learning
- Generative AI
- Data Analytics (Python)
- Deep Learning Fundamentals
- Object-Oriented Programming (Java)

EXPERIENCE

Mobilean Technologies — Full Stack Web Development Intern

Feb 2026 – Present

Remote

- Develop scalable full-stack applications using React, Node.js, MongoDB with responsive UI and modular architecture
- Integrate REST APIs, optimize backend performance, and implement clean code practices for maintainable systems
- Improve application scalability and deployment workflows using modern web development best practices

VTECH Integrated Solutions — Front-End Developer Intern

March 2024

Bengaluru

- Build reusable React components with responsive design to enhance UI/UX performance
- Collaborate with teams to optimize frontend performance and improve usability standards

PROJECTS

Agentic Umbrella Platform (High Impact)

- Architected a full-stack payroll system with UK compliance, secure payments, and PostgreSQL + Prisma backend
- Implement payment reconciliation, API integration, deployed using Railway, Vercel for scalable production systems
- Designe secure backend architecture with focus on data integrity and enterprise-grade workflows

DevComrades

- Engineer real-time networking platform using MERN stack with authentication and user connection system
- Implement low-latency chat using Socket.io and design scalable backend for concurrent users

NeuralGuide AI

- Develop AI-powered assistant using Gemini API for code analysis and chat-based developer support
- Build persistent user tracking system to enhance personalization and session continuity

RESEARCH

DevComrades: A Social Networking Platform for Developers

2026

- Author research paper on system architecture, real-time communication, and scalable system design
- Analyze performance challenges and document implementation strategies for networking platforms

CERTIFICATIONS, SKILLS & INTERESTS

Certifications

- Cloud Computing (NPTEL, IIT Kharagpur)
- Natural Language Processing (NLP) – Ongoing

Technologies

- Languages/Frameworks: JavaScript (ES6+), Java, React.js, Node.js, Express.js
- Databases/Tools: MongoDB, PostgreSQL, Prisma, Firebase, Docker
- Platforms: REST APIs, Git, Postman, Railway, Vercel

Skills

- Scalable full-stack systems, RESTful APIs
- Authentication & authorization (JWT, RBAC), real-time systems (WebSockets)

Interests

- AI/ML, NLP, LLM-based systems
- Backend architecture, system design
